

Colonel Rick T. Johns (“Rico”) serves as the Deputy Director for Air, Space and Cyberspace Operations & Chief Information Officer, Headquarters Air Force Materiel Command, Wright- Patterson Air Force Base, Ohio. He is responsible for shaping the cyber workforce and cyber infrastructure for operations to test, field and sustain agile war-winning capabilities. He formulates policy and guidance for information technology operations and directs activities to implement a \$120 million annual operations budget supporting 80,000 customers across eight military installations and multiple geographically separated units. He oversees a portfolio of 900 systems, providing guidance for \$1.2 billion in capital investments, ensuring security of classified and unclassified networks and supporting risk assessment activities. He also assists the Director in the command’s flight and test policy, and resource allocation for flight management, airfield services, weather services and command and control operations and plans.

Colonel Johns was born on Eglin Air Force Base, Florida and is a graduate of Southern Illinois University with a Bachelor of Science in Industrial Engineering and Troy State University with a Master of Science in National Security Affairs. He has deployed/forward deployed to Iraq, Afghanistan, Kuwait, Qatar, Bahrain, and the United Arab Emirates. He has served in various leadership positions at squadron, group, wing, and staff levels.
