

Michael R. Grimaila, PhD, CISM, CISSP

Michael R. Grimaila, PhD, CISM, CISSP (BS 1993, MS 1995, PhD 1999) is Professor and Head of the Systems Engineering and Management department at the Air Force Institute of Technology (AFIT), Wright-Patterson AFB, Ohio, USA. He is a member of the Center for Cyberspace Research (CCR), designated as the Air Force Cyberspace Technical Center of Excellence (CyTCoE). Dr. Grimaila serves as a subject matter expert for multiple Department of Defense (DoD) organizations including the Air Force Research Laboratory and the Defense Sciences Board. Dr. Grimaila holds the Certified Information Security Manager (CISM), the Certified Information Systems Security Professional (CISSP), and the National Security Agency's INFOSEC Assessment Methodology (IAM) and INFOSEC Evaluation Methodology (IEM) certifications. Dr. Grimaila is a Fellow of the Information Systems Security Association (ISSA), a Senior Member of the Institute for Electrical and Electronics Engineers (IEEE), and is a member of the Association for Computing Machinery (ACM), Information Systems Audit and Control Association (ISACA), International Information Systems Security Certification Consortium (ISC2), Eta Kappa Nu, and Tau Beta Pi. Dr. Grimaila serves as a National Research Council (NRC) Research Advisor; a conference committee member of the NATO Cooperative Cyber Defense Centre of Excellence (CCD COE) International Conference on Cyber Conflict, Tallinn, Estonia; and as an advisor to the Prince of Wales Fellows / Prince Edward Fellows at MIT and Harvard. His research interests include computer engineering, mission assurance, quantum communications and cryptography, data analytics, network management and security, and systems engineering. He can be contacted via email at Michael.Grimaila@afit.edu.
